BOURBON PEACH SMASH

- Crushed or pellet ice - enough to fill your glass to the top
- 1 oz bourbon
- 2 oz peach nectar
- 1 oz club soda
- Mint sprig for garnish

Fill a glass (a julep cup if you have one - mine wasn't polished so I went with one of Hubba Bubba's monogrammed double old-fashioned) to the top with ice. Pour in bourbon, then peach nectar, and top off with club soda. You can adjust these proportions to suit you, depending on how much of a lush you are. ;) Garnish with mint and serve with a straw.

If you're a big fan of mint, you could also muddle some and include that in the drink. Personally, the aroma of it in the garnish is enough for me.
